Subject: Issue in the offline Final Report

Dear Partners,

When you are preparing, finalising your Final Report with the offline eTools, please be aware of the following error which will prevent you from validating and thus uploading the Final Report into APPEL.

In chapter 4, subchapter 4.2.6 you are asked to provide the number of beneficiarries per sector. Due to a bug, you won't be able to enter the numbers.

In order to get this corrected, please send the xml file, together with the numbers/sector that needs to be added to the support desk ECHO-IS-SUPPORT@ec.europa.eu.

We will then enter the information and send you back a validated xml file that you can upload into APPEL.

Our sincere apologies for this issue, in the next release of the offline eTools this will be corrected.

With Kind Regards,

The ECHO IS SUPPORT Team
ECHO-IS-SUPPORT@ec.europa.eu
